STARTUP DIVISION

STARTUP
EUROPE

Targeted at Blockchain startups ready to scale-up

Lithuania is at the forefront of the blockchain revolution with Lithuania-based projects attracting 10% of all global ICO investments. Being the EU's only hub for the digital ledger it is a gateway for global blockchain industry.

Bank of Lithuania is the first to create and launch (in 2019) a regulatory and technological sandbox platform-service – LBChain – for domestic and foreign companies to develop and test their blockchain-based solutions.

The **Vilnius Deep Dive Week** will be an action-packed programme with real benefits for scale-ups that participate, including:

- Access to the blockchain ecosystem;
- Meetings with key stakeholders – regulators, government officials, accelerators, VCs, best startups, successful ICOs and much more;
- Networking to identify opportunities and build exciting collaborations;
- **Amazing opportunity to participate in an exclusive blockchain conference in Northern Europe – Startup Europe Blockchain Forum ([Block Forum](#))**

Vilnius is rapidly emerging as a FinTech and Blockchain hub
