DEEP DIVE WEEK
Lisbon, 16-18 October 2018
FastTrack VC

**STARTUP
EUROPE**

Why Lisbon

Lisbon is home to an emerging startup ecosystem that has been steadily rising in popularity, with media support, ensuring its place in international headlines after becoming the first **European Capital of Entrepreneurship** in 2015 and then becoming the new home of **Web Summit** in 2016.

Lisbon is fast becoming a **creative and tech startup hub**, helped by accelerator funding, tech incubators and newly refurbished coworking spaces popping up all over the city.

- Over 40 Coworking spaces
- €250m+ raised by startups
- 38 Incubators and Accelerators
- Government run €200m venture capital fund

Also, Lisbon has more hours of sunshine each year than any other European capital!

Analytics Talent

Lisbon is overflowing with talent, with a strong emphasis on **tech, analytics and data**.

Universidade de Lisboa is ranked **number 11 for Engineering** and **top 50 for Computer Science** in the Best Global University rankings. The city is also the home of Lisbon Data Science Academy, which helps develop people to become data scientists.

Talent is still available, with Lisbon ranking number 28 on the Competitiveness Report for availability of Computer Scientists and Engineers.

“Portugal is a tremendously viable location for software development because the country has creative and highly educated engineers, a history of embracing new technologies and can produce quality at a price that cannot be beaten anywhere in Europe” (Microsoft)

Lisbon is rapidly emerging as a Startup hub
