**Smart Cities
DEEP DIVE WEEK**
Lisbon, 13-17 May 2019
FastTrack VC

**STARTUP
EUROPE**

Why Lisbon

Lisbon is home to an emerging startup ecosystem that has been steadily rising in popularity, with media support, ensuring its place in international headlines after becoming the first **European Capital of Entrepreneurship** in 2015 and then becoming the new home of **Web Summit** in 2016.

Lisbon is fast becoming a **creative and tech startup hub**, helped by accelerator funding, tech incubators and newly refurbished coworking spaces popping up all over the city.

- Over 40 Coworking spaces
- €250m+ raised by startups
- 38 Incubators and Accelerators
- Government run €200m venture capital fund

Also, Lisbon has more hours of sunshine each year than any other European capital!

Smart Cities

Lisbon is pursuing a strategy of urban regeneration in particular enhancing green spaces and their connectivity, both strategies of which serve to create more jobs.

The **GREEN SURGE** project is identifying, developing and testing ways of connecting green spaces, biodiversity, people and the green economy, in order to meet the major urban challenges related to climate change, demographic changes, human health and well-being, and more.

"Lisbon's 2017/2021 Political Governance Programme stands as a strong political commitment towards a better city for people to live. One of its main objectives is making of Lisbon one of the cities in the world with a better quality of life and more sustainable. It is an ambitious programme, which considers the reality as well as the challenges that may arise."

Fernando Medina, Mayor of Lisbon

Lisbon is rapidly emerging as a Startup hub
